JAN DANIELLE PLAZA

FULL STACK DEVELOPER

BLK 3 LOT 4, J-Rizal St., MJR, Mandaluyong City, NCR, Philippines | +639776996964 | jandnllplz@gmail.com

PROFILE SUMMARY

As a Full Stack Developer, I have a strong grasp of software engineering principles and skills in HTML, CSS, JavaScript, TypeScript, React, and PHP. I excel in team projects, consistently delivering on time and within budget. With strong problem-solving abilities, critical thinking, and attention to detail, I am dedicated to continuous learning and advancement. I am passionate about creating innovative software solutions that align with business goals and enhance user experiences. View my portfolio here: nielleportfolio.vercel.app.

TECHNICAL SKILL

- Front-end: HTML, CSS (Bootstrap, Tailwind, SCSS), JavaScript (jQuery), Typescript
- Back-end: PHP, Node.js, SQL (PostgreSQL, MySQL), REST API, GraphQL, Prisma
- Web Development Frameworks: ReactJS, NextJS, Laravel
- Understanding of software engineering principles and best practices
- Version Control: Git, Github, Gitlab
- Software Development Methodologies: Agile
  Project Management: Jira for task tracking and project management

TECHNICAL SKILL

- Strong communication skills
- Ability to work collaboratively in a team environment.
- Strong problem-solving skills
- Attention to detail
- Adaptability to changing project requirements.
- Dedication to continuous learning and professional development

EDUCATION

Diploma in Information Communication Technology   2020 - 2023

Polytechnic University of the Philippines, Sta. Mesa, Manila City

- President Lister (2020-2023)

CERTIFICATIONS

Certified Responsive Web Design by freecodecamp

- Foundations of HTML and CSS, CSS variables, accessibility, and responsive design.

Certified JavaScript Algorithms and Data Structures by freecodecamp

- JavaScript basics, Object-Oriented and Functional Programming, and algorithm development.

Certified Front End Development Libraries by freecodecamp

- Using Bootstrap, Sass, and building Single Page Applications with React and Redux..

National Certificate III in Web Development

- Software methodology, responsive web design, interactive website creation, and backend development.

Experience

Freelance Web Design   September 2022 - November 2022

- Executed four distinct projects for clients, encompassing students and small businesses.
- Utilized CSS and HTML to craft tailored websites, including personal portfolios, blogs, and landing pages.
- Managed the entire project lifecycle, from conceptualization to final delivery, to meet clients' specific needs and visions.

Full Stack Developer Intern (August 99 / TaoCrowd, Inc.)   April 2023 - July 2023

- Contributed to ongoing projects, gaining insights across diverse initiatives.

- Trained in Git, ReactJS, and WordPress, applying skills to convert designs into code.

- Collaborated in cross-functional meetings, ensuring project cohesion.

- Addressed UI and bug fixes, enhancing user experiences and project quality.

- Adapted across varied tech stacks (NextJS, Laravel, WordPress).

- Proactively learned with limited formal training, showcasing resourcefulness.

- Recognized for adaptability and consistent UI enhancements in a fast-paced environment.

Full Stack Developer (PCES Inc.)   September 2023 – February 2024

- Developed and maintained web applications using NextJS, TypeScript, Tailwind CSS, MySQL, REST API, and Prisma.

- Integrated and configured PayMongo payment gateway, enhancing transaction capabilities.

- Redesigned website elements regularly to meet changing requirements.

- Contributed to significant partnership developments through strategic meetings with private employers and government agencies.

- Thrived in a dynamic startup environment, showcasing agility, quick learning, and innovative thinking.

- Integrated a CI/CD for automation of deployments and faster development.

Full Stack Developer (Seismic Design Inc.)   February 2024 – Present

- Responsible for maintaining and developing web applications tailored to client specifications, ensuring fast and robust delivery.

- Proficiently utilize Next.js, WordPress, TypeScript, GraphQL, and Dato CMS to build scalable and efficient websites.

- Collaborate closely with our designer to ensure optimal UI/UX design and seamless integration of visual elements.

- Manage the entire development lifecycle, from initial concept to deployment, ensuring seamless execution and timely delivery.

- Proactively address bugs and issues on existing websites, ensuring optimal functionality and user experience.
